5 CENTS PER COPY.

'OUT OF TOWN'

On Friday evening last in Cook's hall, we were treated to the second play of the season, given under the auspices of the Mirror Library Club.

The cast of the play was as follows:

Mrs. Thorndyke... Miss Pringle
Miss Thorndyke... Mrs. Ruthven
Mr. Thorndyke... Mr. Ruthven
Duke of Ellington... Mr. Iveson
Mrs. Munroe... Mrs. Sifte
Miss Munroe... Miss MacKirdy
The Butler... Mr. Gardner
Maid... Miss Balfour

The proceedings were opened with a solo and chorus, Miss MacKirdy singing "Honey Boy" accompanied by several ladies and gentlemen in costume.

The play, which was a three act one was well received, Miss Pringle giving an excellent impersonation of the English Mamma practicing penny economies in order to catch a Duke for her daughter.

The humour and disguises which the circumstances demanded in the second act were well sustained. In the third act all the differences were cleared up and the necessary introductions made in their true characters.

Each of the parts were well taken. Mrs. Ruthven being a very dutiful daughter, and in disguise a very chic maid. Mr. Ruthven handled a very difficult part in an able manner.

and Mr. Iveson as a real Duke was very natural. In disguise as a valet (in love) he was a huge success. Mrs. Sifte acted the inquisitive Mrs. Munroe splendidly and nothing escaped her stony stare. The part of Miss Munroe who was too languid for anything fell to Miss MacKirdy who gave a very natural rendering of it. Mr. Gardner as butler showed a decided taste for his master's cigarettes, and Miss Balfour executed her part as maid well.

After the play there were two character songs by Mr. Ruthven and choruses. The first, "I want you for keeps" was well received and the second "Wont you buy a paper Dandie" was so infectious that the kissing part was heard all through the audience. In concluding the programme Mr. Iveson sang the celebrated song "I'm the Guy." His rendering of the gentleman in question was so good, that Mr. Iveson had to return and sing an extra verse. After the program a dance was given which was well attended. The music was supplied by Mrs. Sorun and Messrs. W. and J. MacKirdy.

Chas. Durant is still confined to the house, suffering from an injury to his ankle received in the football game at Bashaw on May 24th.

Watch for programme of events for the monster picnic in Mirror on Tuesday, July 1st. Something doing all the time.

GOVERNMENT LOAN \$15,000,000 TO G. T. P.

Ottawa, June 2.—With the object of facilitating the completion of the western section of the National Transcontinental railway, the government will advance the Grand Trunk Pacific railway company, by way of secured loan, an amount not exceeding \$15,000,000, payable in 10 years from July 1, with interest at 4 per cent. Formal notice of the decision to make this loan will be given to the house today.

Ample security is being given, the government having taken precaution to protect the treasury in making the loan. The amount will be secured by debentures issued by the Grand Trunk Pacific Railway company, constituting a charge upon the entire western district, "Winnipeg to Prince Rupert," next after all existing authorized charge. It will be guaranteed absolutely as to principal and interest by the Grand Trunk Railway company, the parent company.

An application for this loan has been pending for more than two years. It was first made by the late C. M. Hays then head of the Grand Trunk system and the Grand Trunk Pacific. No loan was made at that time under the conditions then existing. Since then, however the circumstances have altered considerably.

It will be recalled that an issue of \$2,000,000 of Grand Trunk Pacific debentures was recently made, guaranteed by the Grand Trunk railway. Like all other recent issues, a very substantial proportion of this, about 80 per cent, was left in the hands of the underwriters. The cost of the prairie and mountain sections of the Grand Trunk Pacific has been considerably higher than the original estimate, due to the increased cost of labour and of construction material. This is particularly true of the mountain section.

The government is desirous that the whole western division should be completed at as early a date as possible, to afford an additional outlet for the grain of the west. In order that the work of construction may not be retarded in any way, as it probably would in some measure owing to the prevailing financial stringency in the London money market, the government has decided to act as banker for the Grand Trunk Pacific under the circumstances as to market conditions and the desirability of the construction of the western division, the government feels justified in making a loan for the period mentioned, the security guaranteed as it is by the Grand Trunk railway system being regarded as absolute.

It is expected that the advances will be made over a period of two years. With progress less than a week a day, the house has little time to devote to legislation, but the facts of the situation are so well known on both sides of the house, and the necessity of rushing the completion of this new grain outlet is so well recognised that comparatively little discussion is necessary.

OBITUARY

KADLEC

On Saturday, May 31st, 1913, Wenzl Kadlec, aged 77 years, 8 months and 8 days, passed away at the home of his daughter in Edinam, Alta. He had been ailing for some time, but was only seriously ill for two weeks prior to his death. The late Mr. Kadlec was born at Piestin, Bohemia, Europe, and emigrated to Protivin, Iowa, in the year 1869. From there he moved to Wetaskiwin, Alta., in 1897. Mrs. Kadlec predeceased him in 1880 and is buried in Iowa. The surviving members of the family, three sons and three daughters, to whom sympathy is expressed, were all present at the funeral. They are W. J., of Lamerton; Jake and Frank, of Wetaskiwin; Mrs. Chas. Cummings, of Brightview; Mrs. Jno. Christenson, of Bawlf; and Mrs. Ervey Sharkey, of Edinam, all in Alberta. The funeral took place from the residence of Jake Kadlec, in Wetaskiwin, on Monday afternoon, at 3:15, interment being made in the Protestant cemetery.

G.T.P. INTO CALGARY

The first Grand Trunk Pacific train crossed the new steel bridge over the Bow river into Calgary last Monday evening, in charge of Conductor Brandson, Engineer E. J. Winters,

Fireman Jesse and Brinkman Saunders and McArthur.

The train was made up of a locomotive and a few cars of steel which are being laid in position for the reception of the steel, which should take the road up to the barracks site by the end of this week. The steel for the Ellow river bridge will be taken down and that river spanned probably before the end of the month, so that the statements of the G. T. P. officials that the first train over the Tofield-Calgary line would run into Calgary in the early part of July seems likely to be fulfilled if nothing untoward happens.

R. B. Pillars, of Killam, Alta., who will be remembered by many of the old-timers in this part, is visiting with his friend, Harold E. Stevenson.

VISITOR'S OPINION

"There is more building going on in Mirror today than in any other town of its size in the west," is the expressed opinion of T. G. Cook, of Wainwright, who was a visitor in town for several days last week. "You have also one of the most picturesque town sites in Western Canada, and it is a pleasing change to anyone, who being accustomed to trees and shrubbery and then living on the treeless prairie for a time, to pay a visit to Mirror."

"Made-in-Canada" train at G. T. P. station, Mirror, on Tuesday, June 24th.

Mr. and Mrs. W. D. Cook and family have removed to their farm north-east of Mirror.

FOR THE NEXT 30 DAYS

MIRROR, ALTA., JUNE 6, 1913

The business which is a success in a small way without advertising, will be a big success with advertising. And by advertising, the time required to build the success will be infinitely shorter.

Here is something that is worth many dollars to every farmer to know: Sprinkle lime in your stock tank and not a particle of scum will form on the water. When the lime loses its strength scum will begin to form, which may be twice during the season, wash out the tank and repeat the dose. It is cheap, not only harmless but wholesome, keeps the water sweet and saves the live stock.

The announcement is made that the Hog and Dairy Special train which was intended to be run during the latter part of June and the early part of July will not be put on. The reason assigned is that the special purpose of the train was to distribute young sows at a moderate cost to settlers, but the parties who were to supply the pigs for this purpose have not succeeded in saving a sufficient number to justify the running of a special train to distribute them.

The eleventh edition of a publication which should prove of value to every person interested in the progress of settlement throughout the Provinces of Manitoba, Saskatchewan and Alberta, is now being issued from the Railway Lands Branch of the Department of the Interior at Ottawa. This interesting compilation, which is known as the "Homestead" Map shows in a most graphic way the land situation up to the beginning of the present year, also the standing of each quarter-section according to the records of the Department at that date. Like so many of the publications of the Department of the Interior, this latest edition of the Homestead Map is being distributed free of charge. A copy of the publication may be obtained on application to the Superintendent of Railway Lands, Department of the Interior, Ottawa.

The exhibits on the "Made-in-Canada" special include stoves, windmills, gasoline engines, biscuits, confectionery, furniture of all kinds, kodaks, rubber goods, cottons, ducks, oilcloth, hurlup, rubber footwear, tents, awnings, blankets, lumbermen's and contractors' supplies, shirts, collars, corsets, hats (straw and felt), rubber collars and combs, celluloid novelties, hosiery, knitted goods, jute and cotton bags, twine, boots and shoes, points, mangleware, steel products, pianos and other instruments, lacware, silver plated ware, cash registers, brass goods, flavorings, spices, pork products, furs, pumps, oil, gasoline, and innumerable other products. Some of the exhibitors have combined their exhibits in such a way as to lay out a half acre as the store front, with window displays and entrance through a door. On this train will be some exhibits of special interest to every person in the West.

The goosebore seer, he fills a sphere of usefulness and honor; he works with vim; compared with him the scientist's a goner. He scans the trees and bumblebees, he marks the light and shadow; and—hear him speak!—he says: "Next week we'll have a big tornado." Next week is fair, and clear the air, though hot as southern Tophet; no storm in sight, but that's all right! Don't blame the goosebore prophet! He sees the squirl's tail curl for winter nations straining; "that sign he'er fails," the prophet wails, "tomorrow 'twill be raining!" Tomorrow brings no rain, by jinks! It's dry as dust or tinder; no clouds are seen and all things green are roasted to a cinder. "The government ain't worth a cent," he says, "at prophesying; them 'fical chaps, they go by maps, dodeads, and flags-a-flyin'. I'd meet them all, both great and small, and beat them all together; a man must read each twig and weed if he'd foretell the weather." But Uncle Sam still keeps his ham cyclone and rain disburser; the goosebore seer full well may jeer—he can't be any worse.—WALT. MASON.

A town is judged in large parts by what goes out from it, and the local newspapers are pretty good indexes. Boost your newspapers—they are boosting for you in corners you will never know about.

A scientist has invented a substitute for whiskey, but the real need is for a substitute for the morning after.

Make Us Prove It

We dare not exaggerate to you. We are dependent upon your patronage. To get it we must have your trust and confidence. We make the following statements with a full understanding of what they mean to us. You are safe when you believe in these statements.

For the Bowels

If you only know as much as we and those who have used them know about **Recall Ordinies**, you would be as enthusiastic about recommending them as we are. They taste just like candy. They act so easily and so pleasantly that the taking of them is a pleasure.

From children like **Recall Ordinies** and you know that if a medicine appeals to a child, it will appeal to grown-ups.

Recall Ordinies clear the bowels, dispel wind and make you feel happy. By their relaxing effect upon the bowels—They free from the distress and ill feeling that naturally results from irregular and inactive bowels.

Recall Ordinies do this quickly, without griping or causing nausea, purging or excessive looseness. They act to overcome and remove the cause.

CAUTION: Please bear in mind that **Recall Ordinies** are not sold by all drug stores. You can buy **Recall Ordinies** only at the **Recall Stores**. You can buy **Recall Ordinies** in this country only at our stores.

SUGGETT BROS.

The **Recall Stores** are in nearly every town and city in the United States, Canada and Great Britain. There is a different brand of **Recall Ordinies** for each country, and each specially designed for the particular climate for which it is made.

The **Recall Stores** are America's Greatest

SPORTATION**

Within another year the problem of transportation will be solved to some extent. The old cry for cars for shipping out the grain, of the wheat blockade, of the too early close of navigation and of cars stalled at wayside points, will have largely disappeared unless the sudden growth of grain crop is such that a quadrupling of the means of shipping it is not sufficient to carry it out of the country. It may well happen in the order of things that this will be the case but with the new means of outlet will come the greater facility in re-doubling them. This too will remove all the old grievances of the farmer about the grain left standing in the stacks and by the time the harvest is over and the wheat all threshed, there will be an abundance of eager hands to remove it to one of the many shipping points where it may proceed in its course across the seas.

The Panama canal, on which the eyes of all the world are for the moment centered will be open by that time. The west of Canada has at all times taken a keen interest in this venture made by the people of the south and it has also been a hope that the route from the further west of the prairie province would be taken advantage of so that wheat would go direct to the coast and hence through the great canal on its way to the European continent.

Till now there has been but the one route through to the coast and the grade has been such that hauling of heavy loads has been almost impossible. With two new roads nearing completion both with lower grades and one with an easy haul all the way the one road has been compelled to lower its grade.

Added to these is yet a fourth route which will be made up of the lines of the Edmonton and Dunsmuir road which will connect with the Pacific Great Eastern at Fort George. This line will open up the vast new territory of the Peace River and the Grand Prairie and will give an outlet for the grain and other products of that land which is declared to be as extensive and fertile as the prairies between Winnipeg and Calgary.

Yet not only to the west will the grain grower look for the more ready outlet for the products of his lands. There will be in operation through to the eastern coast in the same way the three great transcontinental lines all running right to Quebec and connecting up with the Maritime provinces. Additional facilities provided at Winnipeg in the way of bridges over the Red river which forms the Rubicon after a fashion between east and west will give more ready means of shipping grain through.

Yet another feature of the problem is the completion of the Hudson Bay railway. This line, built by the Dominion government, will give yet another route to the old country. If one can only discover how many months this route could be kept open one would solve to a large extent the whole problem. At present it is no more than expected that this route will be open more than five months at the most, but some there are who maintain

that the railway will connect with a sea route which can well be kept open throughout the greater portion of the year. If that be so, it will be greater for to the Canadian west than either the Panama Canal or the three transcontinental routes, for it will bring every city in the west in connection with a route to Liverpool, the centre of the world's markets which will be nearer to those cities than even Montreal, Quebec or Halifax. There is no gainsaying the fact that the Hudson Bay route is of all the most important for the provinces of the west.

Yet another feature will appear more directly still to the farmer. In Saskatchewan this summer there will be built over 100 elevators, and in Alberta there will be a similar movement. The system of co-operative elevators will see 20 or 30 built this year and owned and run by the farmers themselves, while all the elevator companies will extend their systems. These together with the great terminal elevators which the federal government intends to build at least three points in Alberta not yet known, however, will mean that the farmer will have opportunities never before known to him, of having his grain taken from the field in the fall and, if not shipped out of the country for a market, at least placed in safe storage so that it will not suffer damage to any appreciable extent.

Raise Sheep

MR. FARMER

Have you ever considered the great advantage and profit a flock of sheep would mean to you? The benefit to your farm? As sheep are the best weed eradicators a man can have on his land. There is also the wool, which is a source of profit. A flock of sheep can be raised by every farmer in this district with very little extra work. Try it, and aim directly towards the production of a first-class mutton sheep.

We will pay you the Highest Market Price for Sheep and Lambs at all times of the year.

STREET GOSSIP

The proposed boat building business together with a boat livery is one of the chief topics of discussion in town this week and it still remains a conundrum whether the Boat Club will proceed with the purchase of boats, or whether the funds of the club will be devoted towards the building of a boat house and landing as an inducement to a boat-builder to come in and locate.

It seems to be the general opinion that the Mirror Boat Club should take this matter up, as it was fully understood at the time the subscription list was circulated among the citizens, that a proposition of this nature would receive the support of the Boat Club, and many penned their signature to the document on this understanding.

We are all fully convinced that Mirror will become one of Alberta's greatest summer resorts, and the advent of a boat building plant, even at this period, will prove a drawing card as well as a boon to the town.

We are also satisfied that if the Mirror Boat Club would concede to the consensus of opinion in this matter of building a boat house and landing for the parties who desire to locate in Mirror without owning boats and launches to supply the demand of the public (except on special occasions) they would be placing themselves on record as an organization having the interest and welfare of Mirror at heart.

With the limited number of boats the Club will have at their disposal it will always be a bone of contention just who will secure one of the boats for an evening's fish or row on Buffalo Lake, and one of the prime motives of the Club, viz. catering to visitors, will have to be eliminated altogether.

In the event of such action being taken by the Boat Club it would not change the status of the Club as an organization, as the board of directors would have power to place certain restrictions on the party to whom the boat house and landing would be turned over.

It is to be hoped that the officers of the Mirror Boat Club will give this question their very serious consideration, as it will have a tendency to create a better feeling, generally amongst the business men and residents of Mirror.

visit nearby towns, is something our neighbors have only a speaking acquaintance with. What sayest thou?

W. F. Puffer, M. P. P., was a visitor in Mirror last Monday.

Edgar Stevenson was awarded the contract for building the boat house and landing on Buffalo Lake, by the Mirror Boat Club. The boat house will be 20 x 40 feet, and the landing, 48 feet long, standing 8 feet into deep water. This will permit any motor boat now on the lake to run clear up to the wharf.

Come to Mirror on July 1st.

On Monday, June 2nd, the stock paid a visit to the home of Mr. and Mrs. Tom Ferlin north of Mirror, and they are now receiving the congratulations of their friends over the arrival of twin girls. Mr. Ferlin, in a jubilant mood imparted the above news, and the arrival of the Misses Ferlin, whose aggregate weight totals fourteen pounds has caused considerable joy in the Ferlin home.

WE HAVE FOR SALE

One 1-4 Section near Fort Saskatchewan joins large Government Reserve unlimited range.

Somebody predicted great strikes in America during 1913. Wonder if he knew anything about the local "chorus" strike.

Hospitality extended to Mirror-sporting clubs when they

MIRROR WINS AGAIN

The Mirror Football team won their second away-from-home game of soccer last Tuesday evening when they defeated the Alix eleven on their own grounds by one goal to nil. The game was played in two thirty minute halves and the result was in doubt right up to the last minute.

The play in the first half was confined principally to Alix territory, the Mirror forwards by nice combination work carrying the ball well up towards the Alix goal, but lost to the backs or shot behind the goal. The team work of both sides was apparent at intervals, the Mirror team having a shade the advantage of the argument. No scores were made in this half.

The second period started with a rush by Alix forwards, and on several occasions the ball was worked dangerously near Mirror's goal, but the visiting back relieved in fine shape. Only one shot was any ways near a score, when Stephens shot and hit the goal post, the ball bouncing back into play. Mirror's goal was scored by Rand on a drop shot from left field. The goal was as much a surprise to the Alix goalkeeper as it was to every one else on the field. The play in the second half was to a great extent confined to centre field, although taking the game as a whole Mirror had a shade the best of it on their southern opponents.

Ed. Coleman made an efficient referee.

The teams:—		Mirror—1	Goal	Alix—0
McCormack	Backs			Laiz
Calena				A. Findlater
Elliott				W. Findlater
Johnstone	Half Backs			McCutcheon
Gough				Bell
Critcal				Cunningham
MacCondach	Forwards			Arust
McKirdy				Miller
Hand				Stephens
McMillan				D. Ross
				J. Ross

W. S. Durrer, of Didsbury, Alta., was a Mirror visitor for several days last week. Mr. Durrer was on a tour seeking for a suitable location in which to start a boat building establishment, together with a boat livery. Although he favored Mirror for the above purpose, certain inducements have been offered him by other towns, and he has not as yet fully decided where he will locate.

H. C. MacCondach is away this week attending a wedding at Calgary.
